**STANDARD:** Written policy, procedure, and practice shall require that juveniles receive information or a referral for services of identified needs. The referral shall be documented.

**DISCUSSION:** Opportunities for participation may be provided on-site or at other community agency program locations. Program participation should be verified and documented.

Needs may include, but are not limited to, self-help groups, faith-based initiatives, intervention and/or treatment groups, health department services, recreation, exercise, housing, transportation, medical services, social security administration services, and food. Assistance in these areas can contribute to success for the juvenile and his/her family.

**NOTE:** The standards and procedures set forth herein are intended to establish operational guidelines for community supervision agencies and their employees/contractors and juveniles under supervision. They are not intended to establish state created liberty interests for community supervision agencies or their employees/contractors, or supervised juveniles, or an independent duty owed by the Juvenile Justice Authority to community supervision agencies, or their employees/contractors, supervised juveniles or third parties. This standard and procedure is not intended to establish or create new constitutional rights or to enlarge or expand upon existing constitutional rights or duties.
